

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

FIFTH BIENNIAL REPORT

OF THE

Trustees, Superintendent
and Treasurer

OF THE

Illinois Western Hospital for the Insane

AT

Watertown

JULY 1, 1906

SPRINGFIELD:
ILLINOIS STATE JOURNAL CO., STATE PRINTERS

1906

OFFICERS OF THE HOSPITAL.

BOARD OF TRUSTEES.

President,

FRANK W. GOULD, Moline.

Trustees,

FRANK W. GOULD, Moline.

ALLAN M. CLEMENT, Chicago.

WILLIAM TREMBOR, Freeport.

Superintendent,

WARREN E. TAYLOR, M. D.

REPORT OF TRUSTEES.

Hon. CHARLES S. DENEEN, Governor of Illinois, Springfield, Illinois.

SIR—We have the honor to submit herewith for your consideration the fifth biennial report of the Trustees, Superintendent, and Treasurer of the Illinois Western Hospital for the Insane.

The report of Superintendent Taylor, covering in detail all important transactions of the past two years, is so complete that it is unnecessary for the trustees to add anything in the matter of history or statistics.

We endorse most heartily his recommendations for another ward building, or sanitarium, and additional land for farm purposes. There remains for sale but one tract of farm land within several miles of the institution, and it can be secured at much less price at present than will be possible a few years later, as all farm lands in our vicinity have more than doubled in value since the C. R. I. & P. Ry. purchased nearly one thousand acres adjoining the State property, upon which have been erected repair shops, giving employment to twelve hundred men.

Tract of land above referred to as available consists of about 150 acres, and can be purchased for approximately \$25,000.00.

You will note in the treasurer's report that there is an unexpended balance remaining in our ordinary fund of \$38,259.07, and by continuing the careful and economical management for another year, this amount will probably be increased to at least \$50,000.00. So that by re-appropriating the total surplus and \$50,000.00 additional, a new ward building, or sanitarium, could be erected at very small actual cost to the State, and the need of such a building is self evident.

Aside from above named amounts, the following are absolutely necessary for maintenance of the institution at its present standard of efficiency, and we, therefore, urge appropriations, which we trust will meet your approval:

Revised estimate of the appropriation requested for two years
beginning July 1st, 1907.

Ordinary expenses.....	\$ 350,000.
Improvement and repairs.....	20,000.
Improvement on Grounds and Farm.....	20,000.
To purchase additional land.....	40,000.
To make changes in heating, and ventilation provide additional water supply and mains, ad- ditional power and fire escapes.....	40,000.
Superintendent's residence.....	15,000.
New Building.....	100,000.

REPORT OF THE SUPERINTENDENT.

To the Board of Trustees of the Illinois Western Hospital for Insane.

GENTLEMEN—I respectfully submit the biennial report of the Illinois Western Hospital for the Insane for the two years ending June 30th, 1906.

POPULATION.

July 1st, 1904, there were 766 patients present, 420 of whom were men and 346 women; on parole 43, 22 men and 21 women. Since then 983 patients have been admitted, 540 were men, 443 women. 49 patients have been re-admitted, 25 men and 24 women, making a total of 1,841, 1,007 men and 834 women.

We have discharged 360 patients since June 30th, 1904, 201 men and 159 women. Of those discharged, 139 (74 men and 65 women) were transferred to the asylum for incurable insane. 152 patients have died during the two years, 98 men and 54 women. We had on parole June 30, 1906, 100 patients, 55 men and 45 women. June 30th, 1906, there were present 1,229 patients, 653 men and 576 women. 806 of the patients admitted were suffering from their first attack, 166 from the second attack, 23 from the third, 7 from the fourth, 3 from the fifth, 1 from the seventh, 1 from the eighth and 25 unknown.

GENERAL HEALTH.

The health of the patients has been most excellent, owing largely to the fact that they are given a great deal of exercise in the open air during the day, have splendid ventilation in the house, and pure artesian water to drink.

Radical changes have been made in the bath rooms and closets. New fixtures have been added, the plumbing overhauled, and the ventilation increased, thereby making the wards very sanitary.

POWER HOUSE.

All of our boilers have been equipped with automatic chain grate stokers, automatic ash carriers and induced draft. The new arrangement has lessened the consumption of coal to such an extent that for the past year it amounts to but \$7.36 per capita.

WATER SUPPLY AND FIRE PROTECTION.

Our water supply is abundant, the well is 1,391 feet deep. The water is pure and remarkably free from organic salts.

Fire protection has been extended to all the outside buildings and the system is controlled by a separate pump which carries steam at all times, and when the fire pump is in operation, the house system, by an automatic arrangement, is not affected by the additional pressure. We have added 500 feet of standard hose and an additional hose cart and a number of extra ladders to our equipment.

BUILDING IMPROVEMENTS.

We have constructed an amusement hall, approximately 200 feet long and 100 feet wide. This hall has a seating capacity of 1,500; is equipped with three bowling alleys, billiard and pool tables, has a stage for theatrical performance, and a main floor, where weekly dances are held. This building has proven a source of great comfort and recreation to both patients and employes. Two cottages for consumptive patients, each with a capacity for 20 people, have been erected. Each cottage has a wide porch around it, where the patients can sleep when thought advisable, during not only the warm weather but the cold weather. Between the two cottages, a violet glass house 16x24 feet has been built, where the patients are placed several hours each day. The effect of the violet ray has been beneficial, far beyond our expectations.

The band stand in front of the main building, having a floor space of 900 square feet, was built during the past summer. Tile floors, with marble wainscoting have taken the place of the wooden floors in all of the bath rooms and water closets. On wards No. 6 and No. 12, a number of rooms where untidy patients sleep, have been remodeled. Tile floors and marble walls being used in place of plaster and wood, thereby making them perfectly sanitary. The wooden floor on No. 8, the untidy ward for male patients, has been replaced with tile and marble base at a cost of \$1,600.00. This was done for the purpose of being able to keep the ward clean and free from odor.

A camp in the grove was established last spring, where we have kept approximately 100 untidy and violent patients during the summer. This camp is equiped with 13 tents, a large dining room, screened on all sides, closet, bath rooms, sitting rooms and cooking tent. The experiment has proven successful, and I heartily recommend that it not only be continued, but carried on to a greater extent. Approximately one mile of cement sidewalk has been laid, and considerable hard road built. Many shade trees and shrubs have been set out, and the grounds beautified in many ways.

Our old amusement hall has been remodeled and converted into a chapel, and will in the future be used exclusively for that purpose.

Owing to the increase of our institution, we were obliged to construct a larger and more effective septic tank. The new tank has a capacity of 125,000 gallons of sewage, and is doing excellent work. A new

drain was placed from the tank direct to the river, thus obviating the possibility of contaminating wells adjacent to the small stream formerly used for an outlet.

FARM.

During the past year, approximately two miles of deep drain tile have been placed in the low land, thus making it very productive. The crops have been good. The garden has given an abundant yield, but there is not sufficient land to provide the institution with all it should have during the year. I, therefore, recommend that additional lands be purchased, as I believe it is economy to raise all the vegetables consumed in the house during the year.

Another important feature is the opportunity given patients to do light work, thereby diverting their minds and stimulating their physical condition. I am convinced that moderate, outdoor employment does more to restore confused minds than medicine. We have approximately 200 old men and women who are not very insane, but are very feeble both mentally and physically. They, in my judgment, should be isolated from the more pronounced insane and placed in an infirmary or a building where they can enjoy quiet, be specially nourished, allowed to retire and arise at such times as best suit old people, and not be governed by the usual strict hospital rules.

I earnestly recommend that an appropriation be asked for sufficient, together with our surplus, to erect and equip a building for the accommodation of this class of unfortunate ones, who especially appeal to our sympathies, and deserve the best care a generous people can give them.

CIVIL SERVICE.

Civil service is a success in this institution. The board has exercised discretion and good judgment in making the rules and construing the law.

New blood has been infused in the ranks of the employés. Hospital tramps are ignored; migration from one institution to another is prohibited; rational rules made by superintendents have been adopted by the Civil Service Commission, and employés, discharged for cause, find no consolation in appeal. The secretary is untiring in his efforts to be just to all, but extremely mindful of the welfare of the institution. The Governor and Board of Charities have displayed unusual interest in the charitable institutions. They have not been fault finding or cynical (do not understand me to say former ones were); they are considerate in their recommendations, and extremely conscientious in their efforts to raise the standard of employés and better the condition of the unfortunate ones, and I believe with the guarantee of non-political interference which civil service contemplates, the establishing of training schools, and the hearty, moral support of the Chief Executive and the controlling board, that all of our charitable institutions will cease to be detention asylums, but become what they should be, sanitariums.

South Wing.

To the officers and attendants I desire to express my gratitude and appreciation for the most valuable services they have given us. They have been extremely mindful of the responsibility which has been entrusted to them in attending to the business and looking after the general welfare of their unfortunate charges. I also deem it a pleasure to express to the Board of Trustees my appreciation of the many courtesies and the valuable assistance accorded me in my effort to conduct the institution in a humane and business-like manner.

Very respectfully,

W. E. TAYLOR,
Superintendent.
